COLLABORATION

We believe that the most successful photography stems from an open collaboration between the client and the photographer. Our experience, our technical know-how and our artistry help us to assist you with all of your photographic needs.

We have successfully worked for local, national and international architectural and design firms of prominence as well as museums, hotels, advertising agencies, developers and many more. We continually seek innovative ways to communicate architectural and design ideas. We know it takes much more than technical knowledge to obtain the great shot; it takes experience, interpretation creativity, and artistry, and we know how to work together towards that end, and how to listen to what it is you want to express.

ATTENTION TO DETAIL

Doing what we love most, we notice the details. You will receive the personal attention and experience of photographer Doug Snower. His support staff will ease you through the orders, quotations, and paperwork and can assist with your questions regarding cost, copyrights, documentation and printing.

VALUE AND QUALITY

In times of budgetary constraints, Doug Snower Photography aims to meet your photographic needs while providing value and superior quality. Ask about our not-for-profit pricing, package pricing for multiple assignments and our new frequent shoot pricing. We hope our new pricing will demonstrate how much we value our clientele and how we, too, appreciate quality and value.

MAKING YOU LOOK GOOD

Helping get clients recognized is part of our service. We will support your marketing staff by giving you great photographs, value and service. Our photographs for clients have recently appeared in Architectural Record, Interior Design, Trends, Chicago Architect, as well as many international books and marketing brochures.

Once again our photography was part of the AIA award-winning entries in 2008. We are very proud to be part of some very exciting teams.

THE SUBTLE DIFFERENCE BETWEEN GOOD AND GREAT PHOTOGRAPHY

What makes a great photograph? We believe it is experience, energy, knowledge, aesthetics, artistry and collaborative efforts. Satisfying our client's needs is our biggest concern.
